☎ (415) 860-2834

📍 San Francisco, CA

CAREER OBJECTIVE

Motivated computer science student passionate about technology, problem-solving, and continuous learning. Seeking opportunities to apply coding, teamwork, and creative thinking skills in real-world software development and technical environments.

EDUCATION & TECHNICAL EXPERIENCE & COURSES

B.S. in Computer Science (In Progress)

- San Francisco State University — Class of 2027

Programming Club

📍 San Francisco, CA 📅 September 2021 – March 2022

- Learned foundational programming concepts and created my first coding project.

Data Structures (Java)

- Learned to implement and analyze core data structures (lists, stacks, trees, graphs) in Java.
- Gained skills in algorithm efficiency and problem-solving using Big O analysis.

Web Software Development

- Built dynamic web applications using HTML, CSS, JavaScript, and server-side technologies.
- Understood client-server architecture, databases, and deployment processes.

Programming Methodology (C++)

- Developed strong programming logic and object-oriented design in C++.
- Applied problem-solving techniques using functions, classes, and data structures.

Software Development

- Learned software development life cycle, Agile methods, and version control (Git).
- Practiced teamwork, testing, and project implementation from design to deployment.

SKILLS & INTERESTS

Technical Skills:

HTML, CSS, JavaScript, Java, C++, Google Docs, Sheets, PowerPoint, 3D Modeling, Outlook,

Soft Skills:

Problem-Solving, Communication, Teamwork, Adaptability, Critical Thinking, Time Management, Attention to Detail, Creativity

WORK EXPERIENCE

Intern — Junior Program Leader

📍 San Francisco, CA | April 2023 – August 2023

- Strengthened leadership and teamwork through collaborative projects.
- Completed workshops on workforce readiness and professional development.

Pre-Apprentice — Dev/Mission

📍 San Francisco, CA | Fall 2025 – Inprogress

- Completed a 12-week program in IoT, IT support, and web development, gaining hands-on experience with hardware, coding (HTML, CSS, JavaScript), and networking fundamentals.
- Built tech projects combining circuits,sensors, and web apps.
